

316 Stainless Steel Push-in Fittings

The collet is made in stainless steel 316L ensures the perfect tube clamping with every kind of material without damaging the surface.

The connection between the tube and the fitting ensures a total tightness even in severe conditions such as impact and vibrations.

All of the threads from this range have been equipped with tightening parts, which allow the direct assembly of the fittings, reducing the installation time.

Food Viton o-rings as standard for all parallel threads.

All the straight adaptors, with taper or parallel threads can be assembled also with allen keys and it is possible to use them in reduced spaces.

Material - Component Part

Aisi 316L Steel Body
Aisi 316L Steel Collet
Aisi 316L Steel Capsule
Aisi 316L Steel Clamping Washer
Teflon Safety Ring
Food Viton Lip Seal
Food Viton Tread Packing

Threads

Tapered in conformity with ISO 7.1, BS21, DIN2999
Parallel in conformity with ISO 228 Class A
Metric in conformity with ISO R/262

Temperature Range:

-20°C to +225°C

Fluids

Compressed Air – Vacuum
